## Barnes Honored By Chamber

Robert Barnes of Robert Barnes and Associates was presented with the President's Award by the Upper Keys Chamber of Commerce at their annual awards banquet on Friday, October 14. This is not an annual award, it is only presented when the Chamber feels it is deserved. This year the decision was unanimous to present the award to Robert Barnes.

The Homestead-based architectural firm recently designed the new offices for Key Largo Chamber of Commerce and Visitors Center. Ground breaking for the 4,000-square-foot conch style building is scheduled for January, 1995.

"We are so proud of his work, his involvement and his dedication to assure a new home for the Key Largo Chamber of Commerce," said Chamber President Ginna Thomas-Drake.

In accepting the award, Mr. Barnes stated, "We always give 120 percent to our clients and we are honored to accept this award and are humbled by such an obvious show of appreciation."

Other projects that Robert Barnes and Associates' Tavernier office is responsible for include Morada Bay, The Moorings, Sea Isle Resort and Regan Insurance Company.
